Mr. Lab Director  
ACME Labs  
PO Box 000  
Anytown, WI 53000

SUBJECT: Revised Certificate for Laboratory Certification/Registration

Dear Mr. Director:

Attached you will find a revised certificate indicating your certification with Wisconsin. **This certificate has been revised as follows based on an application received xxxxxxxxxxxxxxxxx:**

- Adds certification for **Nitrite by EPA Method 353.2** in test category 18 [Safe Drinking Water]

*Please note that your certification for these parameters was granted effective xxxxxxxx.*

**This revised certificate rescinds all previous certificates and is valid until August 31, 2006 unless your certification is suspended or revoked.** The certificate indicates the test categories for which your laboratory is certified.

A laboratory must be certified or registered to submit data for compliance with many of the agency's environmental programs. If a laboratory operates without the proper certification or registration, the data may not be usable for Department decision making and the laboratory could be prosecuted by the Department of Justice.

If you have any questions, please feel free to contact Rick Mealy of my staff at (608) 264-6006.

Sincerely,

David Webb  
Chief - Environmental Science Services  
Division of Enforcement and Science
